By a note to the managing authority of 16<sup>th</sup> December 2020, the European Commission representative underlines that the article 49-1 of the *EU regulation n° 1303/2013* provides that the Committee shall meet once a year, and therefore, the written proceedings does not respect this provision. Also, it should have been better to organize a meeting *via* videoconference.

The Commission made several observations on the different points submitted under the scrutiny of the Committee, namely:

- about the Interreg Program 2014-2020, the Commission asked for precisions about indicators on the projects of the Club Export and the Chamber of Commerce and Industry of Reunion Island. It also asked about precisions on the actions of communications led in the countries of the Indian Ocean (beyond the Indian Ocean Commission) and the role of the delegations of the EU in these actions.
- About the Interreg Program 2021-2027, the Commission made several observations related to the chosen strategy (perimeter of the Program, common challenges, choices and justification of the strategic and specific objectives) ; to the description of the priorities (types of actions, indicators) ; to the implementation of the future program (implication of the partnership, establishment of a common secretariat, coordination of the other financings of the EU); and related to the communication on the future program.

## 1.2 *Response of the managing authority*

The managing authority thanks all of the actors who contributed to the consultation, and takes note of the received notices. In accordance with the implementation of the 2014-2020 Interreg Program, the DG-Region requested information about two projects and about actions of information and communication. Therefore, these elements will be transmitted to the DG-Region as soon as possible.
